NEWS BY WIRE.

PHOENIX — Private dispatches received here from Washington today state that L. C. Hughes' nomination for governor is a foregone conclusion, and that his name will be sent to the Senate tomorrow by President Cleveland.

PHOENIX — The Tombstone delegation appeared before the territorial committee at noon and presented reasons for a United States court at Tombstone. The committee will not report until other contra delegations from Gila and Pinal are heard. No prospect for a final vote for several days. Making progress.

NEW YORK — Stephen C. Broadwell died in the prison penitentiary at Bellevue hospital today from a complication of diseases. Broadwell had several aliases. His career of crimes has made him known to the police of the principal cities of the country as one of the most dangerous and skillful counterfeiters and forgers in the United States.

HANNIBAL, Mo. — Norris Nael, formerly of Denison, Tex., where he left a wife and children, meeting yesterday Mrs. Mary Smith, of Paris, Mo., of whom he was enamored, received a curt refusal to listen to his advances. He drew a revolver and fired twice at the woman, then fatally shot himself. The woman was not hurt.

ST. PETERSBURG — It is stated in an official report that an average of one hundred and fifty new cases of cholera and fifty deaths from the disease are reported every week in the government of Podolia.

NEW YORK — A morning paper says: Dr. Emil Dorn, who was for many years aide-de-camp on Von Moltke's staff, has received a cablegram that Prince Bismarck is in a critical condition. He has been suffering several weeks with neuralgia and insomnia. His strength and vigor are giving way rapidly; his pulse is very weak and his appetite exceedingly bad. "It is impossible to predict intelligently just how long Bismarck will live," said Doran, "but I have had recent information about his health which would tend to preclude the possibility of his rallying."

PARKS, Tex. — The Choctaw lead has resulted in bloodshed. A sharp and most desperate encounter took place at Antlers at 2:30 o'clock this afternoon, and for ten minutes a storm of leaden hail fell about the town. At that hour 78 militiamen suddenly deployed from the woods and charged on the residence of Dick Locke, leader of the National party, and opened fire upon it. Locke saw them coming and had barely got into the house when the fusilade began. Locke with five men returned the fire from the upper story. Fully 1500 shots were fired. Every window was shot out and the walls perforated like a sieve. Stray bullets fell far and wide, and terror and consternation prevailed throughout the little town. Everyone was uneasy and no one knew who was safe, with four score half drunken Indians, armed to the teeth and with the smell of blood in their nostrils. In Locke's house three men were found wounded.
